## What is this product?

### Type

The Sub-fund is part of INCOMETRIC FUND, organized under the laws of the Grand Duchy of Luxembourg as a mutual investment fund. This Fund is authorised and supervised in Luxembourg by the CSSF. The Depositary is Quintet Private Bank (Europe) S.A.

### Term

The investment horizon is medium term and should be at least 5 years.

### Objectives

The Sub-Fund is actively managed. The Investment Objective of the Sub-Fund is to achieve a total return via indirect investment in interest rates, dividends, and capital appreciation across the business cycle, understood as a time frame of 3-7 years.

### Intended retail investor

Reserved for institutional investors denominated in USD. The investment strategy corresponds to investors with a high-risk tolerance and high investment risk profile. The fund will be targeting an annualized average volatility of 10-15% across the business cycle and on a 5-year rolling basis and will seek to stay within limits of 10-25% annual volatility. Minimum Initial Investment: USD 500,000.

## What are the risks and what could I get in return?

### Risk Indicator:

The risk indicator assumes you keep the product for 5 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because the fund is not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class.

This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you.

**Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.**

Other risks: Credit risk, Liquidity risk, Counterparty risk, Operational risk, Derivatives risk, Currency risk, Event Risk.

This product does not include any protection from future market performance so you could lose some or all of your investment.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable scenario: This type of scenario occurred for an investment between 28/12/2021 and 28/12/2022 (If you exit after 1 year), 30/12/2021 and 01/02/2024 (If you exit after 5 years).

Moderate scenario: This type of scenario occurred for an investment between 09/04/2018 and 09/04/2019 (If you exit after 1 year), 17/08/2015 and 17/08/2020 (If you exit after 5 years).

Favourable scenario: This type of scenario occurred for an investment between 07/05/2020 and 07/05/2021 (If you exit after 1 year), 04/11/2016 and 05/11/2021 (If you exit after 5 years).

## What happens if Adepa Asset Management S.A. is unable to pay out?

The investments of the fund are held separately from the assets of Adepa Asset Management S.A. as fund management company and from the corresponding custodian bank. Thus, you will not lose your investment in the event of a possible insolvency of Adepa Asset Management S.A.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- Investment: 10,000 USD

Costs over Time	If you exit after 1 year	If you exit after 5 years
Total costs	242.18 USD	1,485.43 USD
Annual cost impact (*)	2.42%	2.42%

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 6.44 % before costs and 4.02 % after costs.

## Composition of Costs

The table below shows the impact if you exit after 1 year.

One-off costs upon entry or exit		
Entry costs	We do not charge an entry fee.	0.00 USD
Exit costs	We do not charge an exit fee for this product, but the person selling you the product may do so.	0.00 USD
Ongoing costs (taken each year)
